PROFESSIONAL EXPERIENCE

Front-End Developer | 2024–2025

Ego Design – Argentina

- Developed and maintained frontend architecture using Next.js and TypeScript, ensuring scalability and code consistency.
- Integrated REST and GraphQL APIs with React, enabling real-time data updates and a smoother user experience.
- Collaborated with designers and backend developers to deliver pixel-perfect UIs aligned with Figma prototypes.

Front-End Developer | 2022 – 2024

Academlo – Mexico

- Refactored legacy codebase into reusable React components, decreasing development time for new features by 30%.
- Implemented dynamic UI elements using React and Tailwind CSS, enhancing usability across mobile and desktop platforms.
- Worked in Agile teams using tools like Jira and GitHub Projects to ensure on-time delivery of frontend features.

Front-End Developer | 2021 – 2022

Malcolm – Perú

- Writing automated tests using tools like Jest and React Testing Library, ensuring code quality and reducing production bugs.
- Performance optimization in web applications to improve load times and enhance user experience.
